14. Upon information and belief, Defendant has committed and continues to commit acts of contributory infringement of one or more claims of the '385 Patent under 35 U.S.C. § 271(c) by selling, offering to sell, and/or importing products including the Accused Products and Services, knowing at least as of the date of the filing of this complaint or being willfully blind to the fact that these products and services constitute a material part of the invention, were especially made or especially adapted for use in an infringement of the '385 Patent, and have no substantial non-infringing uses.

15. Upon information and belief, Defendant has induced and continues to induce others to infringe one or more claims of the '385 Patent under § 271(b) by, among other things, with specific intent, actively and knowingly, at least as of the date of the filing of this complaint, aiding and abetting others to infringe, including, but not limited to, Defendant's customers, whose use of the Accused Products and Services constitutes direct infringement of one or more claims of the '385 Patent.
